Saturday, June 25

White Room, Rainbow Banquet Hall (Pecks), Altona

Social Hour 4:15 – 5 p.m. Dinner 5 p.m.

Program beginning at approximately 6:00 p.m.

A cash bar will be available.

Alumni Association Tea

Friday, June 24

2:00 – 4:00 p.m.

Alice T. Miner Museum

Backyard under tent

Refreshments will be served.

Class of 1972 Biographies

Denise Bechard Mosher

"I was brought up in Chazy and attended CCRS. I attended BOCES and received a Secretarial Practice certificate and had a job before I graduated. I have met great people on the way and learned much from them. Remember there was OTJ training, and it allowed me to try different occupations. I met my husband, Ken Mosher, in 1973 and caused quite a bit of gossip in the town and eventually my parents gave their blessing and we will have been married 48 years at the end of February this year. We lived in St Regis Falls, which is near Potsdam, NY, for 35 years and moved to OK in 2011. We have two children: Adam Jackson Mosher and Emily Mosher Harper. Our son and his wife live in Tulsa, OK, about an hour away. Our daughter lives in Norwood, NY, with her husband. We have been blessed with eight grandchildren from ages six to 22 years in age. I retired from Nicholville Telephone Co., Nicholville, NY, having worked 15 years there. Here in OK I retired from a local bank in 2016. Ken has kept his teacher's licenses and has subbed in the local school and others out of the area. Crocheting is one of my hobbies. My compassion is my horses. In NY we rescued horses and gave them a lot of TLC and rode trails as well as horse shows. Never won blue ribbons, but just to say I did it. We have lived in a small rural town called Castle, OK, for 11 years which is out in the country. In the summer we go to a campsite called Blue Haven in Ellenburg, NY. We consider it our summer home to be with our daughter's family as well as being able to visit friends."

Cecile Boire Miller Charles Miller

"Charlie joined our class in eleventh grade and my first impression was "what a big duffer"! Over the course of the Junior year his friendly personality became quite evident. Our first date was the Junior Prom and we continued to date through our Senior year. Upon graduating Charlie attended SUNY at Canton and I went to nursing school. I quit nursing school at the end of the first year and we married in June of 1973. Charlie graduated from college in 1974 and he went to work with his father in heavy construction. The first job was in Newport News, VA. Moving to Newport News was quite a culture shock for me. I went from knowing everyone in small town Chazy to living among strangers in a big city. Charlie's work required us to relocate every 18 to 36 months. We have lived in NY, VA, MD, DE and PA. In September 1974, while in VA we welcomed our son, Charles, Jr. During one of our times in PA, our daughter, Christy completed our family in 1978. Our son Charlie works in Homeland Security at JFK. Our daughter Christy has her MBA and is currently an

alert implementation manager at ECRI, a non-profit, that focuses on patient safety. We have two grandsons and grand kiddles. In 1988 we permanently settled in PA and Charlie commuted to various job sites. This decision was made to allow our children to stay in one school system until they graduated. I went back to school in 1990 and became a Medical Assistant. Upon graduation, I went to work in a family practice and then moved up to Practice Administrator. I continued working in the same practice for 29 years until I retired at the end of 2020. Charlie retired in August of 2021. Over the years we have enjoyed traveling and hope to see more of the United States using the RV that we purchased last fall. Charlie attended ten different schools due to his father's occupation and he feels that CCRS was the best school that he attended. We have lived in many places and we both agree that the little town of Chazy will still always be home."

Michael Boire

"Hello and congratulations to all classmates on our 50th class reunion. After graduating from CCRS I began working at Harris Intertype, formerly known as Sheridan Iron Works in Champlain, NY as a machinist, working there on the afternoon shift. During the daytime hours I also worked for Mr. Breidenberg at his hardware store on Main Street in Champlain, NY. In the fall of 1974, I left both of those jobs to attend Clinton Community College full-time. I graduated from Clinton in June 1976 with my associate degree in criminal justice, hoping to land a NY State Trooper job which never happened. In June 1977 I started what turned out to be a 36 ½ year career with NYS Dept. of Corrections. I retired in December 2013. In May 1979 I married Linda Lawrence from Keeseville, NY. We were blessed with two sons, Matthew (June 1982) and Jason (August 1985). They both live here in the North Country. Matthew blessed me with a grandson, Cooper, born on the same birthday as Jason, in 2011. Linda and I divorced in 2004. I have traveled to Florida several times, Arizona and California each once and have taken one cruise. I have enjoyed antiquing and garage/estate sales for many years, always searching for that special something, which is never-ending, almost like a sickness. I continue to keep my family homestead up to par with lawn/snow/home maintenance. Between it and all the lawns I take care of, it has become a full-time job. I have enjoyed retirement since 2013 and have been blessed with good health, good family, and good friends. I am proud to have attended CCRS and Clinton Community College, which opened many doors for what I feel has been a successful life here in the North Country, which is and will always be called my forever home. Looking forward to seeing as many classmates as possible for our 50th graduation anniversary celebration in June 2022."

Sheila Clookey Facteau

"After graduation I married the love of my life, Gary Facteau. Together we had two children, Kimberly and Bryan. We have been blessed with five grandchildren: Tyler, Kelsey, and Coby Baker; Preston and Ryder

Facteau. I worked as a cosmetologist for 12 years and a machine operator at Imperial Wallpaper Mill for ten years until they closed. I made a career change and returned to college after being out of high school for 25 years. I earned a degree in business and began working as a billing representative at Eye Care for the Adirondacks until I retired in 2014. Gary and I also owned and operated GLF Custom Homes for 20 years. Our son, Bryan Facteau, continues to operate the business and carry on his father's passion. Sadly, I lost Gary to pancreatic cancer. We were married for almost 35 years. Since that time, I have devoted myself to my children and grandchildren. I cherish the time I get to spend with them, and I live life to the fullest."

Michael Cote

"After graduation I accepted an Air Force ROTC scholarship and enrolled at Syracuse University. I began to have progressive hearing loss during my freshman year, which Uncle Sugar figured out while I attended Summer Camp the summer between sophomore and junior years. I was given the option of becoming an enlisted man and reporting to Lackland AFB or accepting a discharge. I accepted the discharge and spent several weeks discovering all the small scholarships that no one applies for and applying for school loans to pay for the next two years of college. Three days before graduation the university informed me that they lost a grade from a freshman literature class that I would have to test out of to get my diploma. Since I had already accepted a job as the assistant manager of the ID Card office at the university, I had free tuition and elected to just re-take the course and officially graduated from Syracuse University College in the fall of 1976. The manager of the ID Card office was a fraternity brother who was leaving that summer to get married to a woman from Quebec and moving to Canada, leaving me to become the Manager of the office. Lynn Szatmary, who worked for us as a work/study employee, was also invited to the wedding, which was in Jonquiere, Quebec. I offered to pick her up in Long Island and drive to the wedding. We began dating, and after a year of driving to Long Island every other weekend I decided it made more sense to move to the New York metropolitan area. I took a job selling advertising in Queens and realized after a few months that I wasn't very good at it and found a job with Graybar Electric as an inside salesman. 45 years later I'm still in the electrical supply business as an outside salesman. Lynn and I married in September of 1979 and have two wonderful children, Matthew and Deanna. Matthew works with a survey/civil engineering company in Ohio and Deanna teaches history in Connecticut. Lynn retired a few years back after 40 years as a textile artist/clothing designer and now has a small sewing/craft business. I'm still selling electrical stuff but find myself spending more and more time on the golf course trying to get my handicap to 10. I'm also still actively involved with the Psi Psi Chapter of Sigma Chi and try to attend as many alumni events in Syracuse as I can. We've always enjoyed traveling to the Caribbean but hope to begin spending more time traveling in the USA as I

start winding down my career. I try to keep in touch with my classmates and look forward to our 50th reunion."

Thomas Dragon

"After graduation I continued my education at PSUC in the fall of 1972. During the next 4 years I studied business management while working retail at King's Department Store. In 1976 I married Marie Donnell and moved to Sanford, Maine working for King's. In 1977 we were blessed with a son Mark. I worked in Maine, NH, and VT for King's leaving them in 1979. The next move took me back to Plattsburgh working at Brooke's Drugs. In 1980 Marie and I went our separate ways and another career change, working for a food service contractor at PAFB. In 1981 I had another career and life change. I took a job as a salesman for Onelda Building Services which lasted until 1987. I also met in 1980 and married in 1983 my life partner and true love Sonia Lacroix, a lovely French-Canadian lady. I also added to our young family my stepson Patrick. I immigrated to Canada in 1983 and lived there until 2018 in Naperville, Quebec. In 1987 I made my final career choice; I joined The U.S. Department of Justice's Immigration and Naturalization Service as an Immigration Officer. I worked for INS at Champlain, NY, Montreal, Quebec, Miami, FL, Washington, DC, and Guantanamo Bay, Cuba. I was also an active Union Official with AFGE representing Immigration Officers. Unfortunately, in 2006 we lost my son Mark to a river rafting accident in the AuSable River. Since that incident I have been involved with Keeseville Volunteer Fire Department's Swift Water Rescue. I have helped to raise funds to support their continued rescue efforts. I retired from Customs and Border Protection in May 2014. For the next four years I spent a lot of time caring for my aging parents while trying to figure out the retirement gig. In 2018 Sonia and I moved back to the Lake Shore Road eventually building a new home there where we remain happily retired caring for our 8 rescue cats. I remain a passionate snowmobile rider and collector which keeps me busy. I am deeply indebted to CCRS for providing all the building blocks that allowed me to have this great life, thank you CCRS."

Larry Lee Ebere

"After graduation in Jan. 1972 I entered the Vermont Army National Guard in Swanton Vermont, which was a Combat Support Unit. We had a 4.2" Mortars, Red Eye Missile, Reconnaissance Platoons and AVLB Bridge section. In February of 1972 I went to Basic Training in Fort Dix NJ for 8 weeks then on to AIT in Fort Knox KY for Armor (Tanks) for another 8 weeks. At the completion of my military training, I came home and worked at Ideal Auto Supply in Plattsburgh where I worked the parts counter, delivered auto parts to local garages, installed vehicle windshields, and cut glass for automotive applications from around the end of May in 1972 until 1975. In 1975 I started working for Rosebud Creamery delivering dairy products to stores and houses. I did this until Aug of 1978 when I then started working at Ayerst. At Ayerst I moved up through the promotional schedule in the union to Manufacturing Specialist. In 1999 I was promoted to a company position as

Production Leader 1 (Supervisor) where I oversaw multiple departments on various shifts. From there I was transferred to Lead Investigator in 2001 thru 2003 where I wrote MIR's (Manufacturing Investigation Reports.) I investigated product deviations and came up with CAPA which stands for Corrective Action Preventive Action to improve quality and help to eliminate further incidents from occurring. In 2003 I was promoted to Production Leader III (Supervisor) where I again oversaw multiple departments such as Coating, Granulation, Encapsulation and Compression on various shifts including weekends until I retired in 2008 with 30 years. Along the way all during this time while I was working at Ayerst. I left the Vermont Army National Guard in 1977 and transferred to the U. S. Army Reserves 76 Division Training out of Montpelier Vermont, where I went to the 76th Division Training Army Drill Sergeant School and graduated in August of 1981. As a Drill Sergeant I provided professional technical training, guidance of Initial entry/Junior NCO soldiers in various military subjects to better develop them to their military career in the military. During my time as a Drill Sergeant, I received the Most Outstanding Drill Sergeant Award of The Battalion in 1985 and in 1989; Army Achievement Medal 1988, 1991, 1992 (For Meritorious Service); Army Commendation Medal 1994 (For Outstanding Performance of Duty). I retired from the military in 1994 with 22 years of service as a Senior Drill Sergeant at the rank of SFC-E7. "Drill Sergeants Lead The Way." Also, along the way while I was working for Ayerst, I drove school bus for Northeastern Clinton Central School from 1992 -1995 and started and ran Ebere's Lawn Care business and ran that from 1987 until 1999. I have two great children that I love to the moon and back Jodi and Chad. In 2005 I was engaged to my wonderful fiancé, the love of my life, Penny Castine. Together we currently have 5 beautiful grandchildren, 1 girl and 4 boys who keep us busy with sports and horse shows all year long. I currently drive school bus for Beekmantown Central School and have been there since 2010. In April of 1996 I had the opportunity to go to Nashville Tennessee and perform in the Nashville Starseek Talent Competition, where the winner would receive a recording contract. However, I didn't win that competition, but I was voted 18th by the TV audience out of about 600 contestants, so that was impressive. I am sure that all of you or most of you know that I am still entertaining and have been since 1995-present, and pretty much full time in the summer months, throughout New York, Vermont, New Hampshire and wherever it takes me. I entertain for fairs, festivals, campgrounds, summer concert series, special events, anniversaries and more. I am also currently an active member of the North Country Honor Flight Team and have been since 2015. I helped organize fundraisers, run the sound system for our sendoff ceremonies, was an assistance flight leader, a flight leader and other duties that should come up. We fly WWII, Korean, Vietnam War Veterans to Washington DC for the day to visit their memorials. If you have never been to one of our sendoff ceremonies, you owe it to yourself to attend. We bring WWII, Korean War, Vietnam War Veterans to Washington DC to visit their memorials. Our flight scheduled for 2022 are as follows: (May 14th, June 18th, Sept 3rd, and Oct 1st). The ceremonies are held at the Old PAFB Oval by the flags and start at 7:00

am Sharp. Hope to see you at one of these sendoff ceremonies. I currently reside in Plattsburgh N.Y with my fiancé Penny Castine. "God Bless The U. S. A."

Robert (Freddie) Friedrich

"After graduating, I took a two-year course in Plumbing and Heating. I met some great people, and through channels I acquired the job as Pipe Fitter Welder for L. Pugh Construction. Five years later I met my wife of 42 years, Jill Neverett of Chazy. We married in 1980 and have two sons: John (41) and Joshua (37). We have three grandchildren: Halley (17), Harper (11) & Bentley (11). Years later, I assumed self-employment and transformed my welding career with heavy truck and heavy equipment repair. I have continued to self-educate, earning many active certificates. (Specializing in diesel electronics). I am presently working part-time of 50 hours a week. Ha! Ha! Throughout these years, Jill and I have done a lot of traveling and will continue to do so, hopefully."

Carol Gonyea Barcomb

"After graduating in 1972, I got a job working at Ayerst Labs in Rouses Point. I married my husband Steve Barcomb in 1973 and moved to West Chazy. We raised two children, a boy and a girl. We bought our home on the Parker Road in West Chazy in 1978 and I still reside there. We also have four grandchildren, 1 boy and 3 girls. I returned to work for Wyeth in 1991 and continued there for almost 20 years until the Chazy facility closed. After taking a few years off, I went to work for CYPH for almost 7 years, where I retired from in 2017. My husband, sadly, passed away in August of 2021. We were married for 48 years. I now spend my time doing new things like joining a gym, listening to music at Vesco's Vineyard, visiting with family and friends and, of course, spending time with my grandchildren."

Lucy Elizabeth Hurlbut

"How do you sum up life from 1972 to the present in a way that will be of interest to the alumni, family and friends of CCRS? I'll start with what is most important to me - my four amazing children who are all, including their spouses, serving on military active duty. Katherine is a major in the Air Force married to Nick who is an AF lieutenant colonel. Both are attending professional military schools and will take over command of squadrons at Keesler AFB MS in the summer. Brian is a major in the Air Force and is currently deployed. He completed 300 alerts as a missile launch officer before cross training into combat communications. His wife Lindsey is an AF first lieutenant operating room nurse. Kristen is an Army first lieutenant field artillery officer stationed in Georgia who recently returned from serving at the DMZ in Korea. Michael is an Air Force second lieutenant attending pilot training and was recognized as the Company Grade Officer of the Year for his organization. It was an honor for me to spend 26-years in the Air Force followed by over 17 years at the Virginia Military Institute. I wore the Air Force uniform from the time I was 18 until age 65. During the three assignments/fourteen years I spent at the

Pentagon/Washington DC area some of the more notable accomplishments were that I served as a White House Social Aide to President and Mrs. Reagan; authored and successfully advocated three legislative proposals that won Congressional approval; led a Headquarters Air Force reengineering effort and the Air Force Year of Training; and conducted investigations as an Inspector General. During my career I led response and investigation efforts in numerous high-stress situations such as fires, hazardous material spills, robberies, secure area intrusions, typhoons, earthquakes, suicides and bomb threats. The most challenging assignment was as a Deputy Base Commander. I received a BA in Secondary Education from Arizona State University and an MA in Human Relations from Webster University. I am a commercial pilot with instrument and multi-engine flight ratings. My teaching experience includes American Defense Policy; Leadership and Management; Evolution of US Air and Space Power; Foundations of the US Air Force; Private Pilot Ground School; History of Aviation; Flight Safety; Principles of Business Process Reengineering; and Leadership and Career Development. Liberty Pines LLC is the business I own at Smith Mountain Lake VA."

Bonnie Laurin Massey-Preston

"After graduation, I went to Mater Del College for one year, then transferred to Plattsburgh State. That fall, I met my first husband, Tom Massey. We got married in 1974 and moved to Des Moines, Iowa for five years. In Des Moines, I worked at The Bankers Life Insurance Company headquarters and our first daughter, Erin, was born in 1978. Shortly after that we moved back east and lived in Chazy for one year, then moved to Essex Jct. VT, where we lived for 26 years. I began my journey in the early education profession and our second daughter, Lora, was born in 1983. I became a preschool teacher at St. Michael's College Early Learning Center and worked there for over 20 years. In 1991, Tom passed away unexpectedly from complications from cancer. I began taking courses to finish my bachelor's degree and on Mother's Day 2000, Erin and I graduated together from St. Michael's College. In 2006, I began working with Champlain Valley Head Start, as a County Supervisor, supervising preschool teachers at different sites. I still love this job and continue to work in this position today. On 7/7/07, I married John Preston and we live in Sheldon, VT. We have 5 daughters, 4 grandsons, and 3 granddaughters, ages 24 to 8 years old. My hobbies are reading, baking, and making cards for every occasion.

Charles Miller

See: Cecile Bolre Miller

Michael Oliver

"I attended Chazy Central 1958-1972. After graduation, I attended Plattsburgh State, followed by Rensselaer Polytechnic Institute in Troy, NY. I was Vice President of my senior class and graduated with a degree in Civil Engineering in 1976. After college, I worked for Chicago Bridge and Iron, which took me to Greenville, PA, Houston, TX, Washington, D.C., and Long Island, NY. I returned to upstate NY to work for

the Lake Placid Olympic committee in 1979 and held other jobs in the area. I would go on to work with the Army Corps of Engineers at Plattsburgh Air Force Base for 10 years before starting my own engineering and contracting business. In 2008, an injury left me unable to work full-time. I am a proud father and grandfather. My sons Anthony and Timothy were born in 1986 and 1987. My grandchildren, Henry and Quinn, were born in 2020. I reside at my family home in Chazy, on Route 9."

Deborah Reynolds Dupree

Married: yes

Education: BA PSUC; Masters PSUC

Occupation: Retired Mental Health Counselor

Spouse: Dan Dupree

Spouse Occupation: Retired Clinical Social Worker

Children: Two sons, three grandchildren

Last 50 years: We've lived in West Chazy, New York; worked in Plattsburgh and then retired to West Chazy. We have been blessed with a great life, two great sons (Aaron & Tyson), beautiful daughters-in-law and three wonderful grandchildren. Life is good!

Pamela J. Smith Carter

"I left high school and did 1 1/2 years of community college in Albany, NY. But school was not for me. A college friend and I crossed Canada by train. Beautiful British Columbia was the destination. I married twice and had two boys with my second husband. He passed from cancer when the boys were 16 and 13. I live in Canada."

Agnes Terry Beavers

"After graduation, I went to BOCES for more office training. I then married into the military and moved to Bitburg, Germany. There I studied with the European Division of the University of Maryland, focusing on the psychology of human nature, and creative writing. We did many tours (the French are crazy on New Year's Eve!) and Volksmarches around the countryside. Lots of good people and food, good Oktoberfests with warm beer, and great ice wine. My daughter started school and my son was born in Germany. After four years in Germany, we were stationed at McGuire Air Force Base, New Jersey, where I wrote a weekly entertainment column for the base paper. I also took more classes in Business Management and computer programming. I worked for the State of NJ in Trenton where I honed my business skills in personnel management. I was soon hired by the Federal government and worked in Logistics on Ft Dix, New Jersey. We moved to Eielson AFB, Alaska (near Fairbanks) in 1986. The weekend we arrived the base Aero Club had Open House. A pilot took me up and that's all it took. I received my ticket (license) for fixed-wing puddle jumpers in May 1987. I was rehired by the Federal government and worked in different financial positions due to promotions. As the Budget Analyst for the 353rd Combat Training Squadron, I also managed the financial needs of our squadron's Detachment on

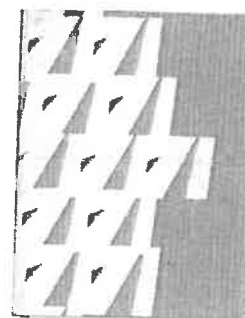

Elmendorf AFB near Anchorage. Working for the government provided me with work related travel around the country and Hawaii. Due to government reductions in 2012, I was relocated as the Budget Analyst for the 354th Operations Group and all its squadrons. I retired in 2014 as a Budget Analyst for the government. I still live in Alaska and have seven grandchildren (two deceased) and three great-grandchildren. I enjoy gardening, camping, fishing, and keeping up with my senior friends in North Pole. And yes, I know Mr. Santa Claus from North Pole, Alaska.

Jeffrey Trombly

"My life journey after CCRS has taken me to Oak Ridge, TN where my wife, Cathy Ryan (CCRS Class of 1972), raised our two wonderful children James and Caitlin. We have also been blessed with two grandchildren: Madison and Charlotte. My career has taken the usual twists and turns over the years and I currently find myself teaching at the University of Tennessee in the Haslam School of Business Supply Chain Management Department. I remain very active in soccer coaching where I continue to coach both boy's and girl's teams of all ages. I look forward to seeing everyone again this summer and catching up.

Irene LaValley was employed at Chazy Central Rural School, starting in the cafeteria, then becoming a teacher's aide, and finally moving into the office as a secretary and retiring as the Secretary to the Superintendent.

Alberta Nolette worked at Chazy Central Rural School District from 1964 through 1991 until her retirement as accountant/ bookkeeper.

In March these students carried a 3-D printed scale model of the old school to the Alice T. Miner Museum to be added to the permanent collection. The model was painstakingly created by 2019 alumnus Alex Chapman as his Senior Project. Visit The Alice to see it and all the amazing things held there!

The CCRS Digital Archive

All CCRS yearbooks from 1921, 1951, and 1962-2018 are viewable online! Go to our website, www.ccrsk12.org. Click on Community > Alumni > Yearbooks.

All available copies of *Our Inheritance*, a booklet/newsletter printed in-house at CCRS from 1925-1931 were digitized and added to our website.

Community > Alumni > Our Inheritance. These booklets are filled with CCRS history and give us a window into the early activities of the school, including classes, sports, graduation, Class Day, music, and much more. Several have messages from William H. Miner himself. Student writing is included, with the name of the student writer. Many familiar local names are represented. Take a look!

More digital content is on its way. Thanks to everyone who has loaned or given us items to add to our archive!

WHAT WE ARE STILL SEEKING:

We have almost no Class Day or graduation photos between 1969 and 2005 in our collection. Please let us know if you have any we can copy! Thanks to those who have filled in a few of those gaps.

Our collection holds only 5 or 6 color photos of the interior of the old CCRS school building. There must be more! And we have NO photos of the leaded/stained glass windows of the original Shakespeare Room that were on the south side of the school. Do you?

Please contact Steve Patnode, spatnode@chazy.org, or 518-846-7135 if you have questions or something to offer, even if it's just a lead on where we might find something. Thank you!

CHAZY LIONS CLUB 55th ANNUAL OLD HOME DAY

CCRS graduates! Please consider representing your graduation year and helping our yearbook with a donation to the Aquila. Even a small donation will get your name and year of graduation listed!

Checks can be made payable to: CCRS Yearbook Club
Mail to: CCRS Yearbook, 609 Miner Farm Road, Chazy, NY 12921

CCRS Education Foundation

Greetings CCRS Alumni!

We want to start our annual note to you all, by expressing our gratitude for your help this past year – your donations and enthusiasm have helped the CCRSEF continue to fund projects that our teachers have needed for their classrooms and students.

We are proud to have funded grants of all kinds over the years; from classroom comforts which help students focus, to scientific calculators for our Jr/Sr high Mathematics Department, to instruments and instrument cases for the Music Department, to 3D printers for the HS and elementary STEM programs, to tumbling mats and dumbbell weights for the Phys Ed Department, and so much more. Your generosity has helped us to provide above and beyond what the annual school budget can. Thank you!

We would like to remind you of our 2 biggest fundraisers this year:

- August 3rd – Annual CCRSEF Trivia Night & Silent Auction @ Vesco Ridge Vineyards
- November – Facebook Giving Day

Please join us for a fabulous night of enjoyment at Vesco Ridge on August 3rd. Trivia night is always a big attraction, and this night, we include some great Chazy based trivia as a special bonus. Bring along your favorite Chazy historian to help ensure the victory. We will have some outstanding items for our Silent Auction that you won't want to miss.

As with any charitable organization, fundraising is the key to success. The CCRS Education Foundation is canvassing the community, and alumni for those interested in helping us achieve our goals through fundraising. A fundraising committee has been established, but we need more help! If you are interested in helping our students reach new heights, please contact one of the Board members below. Thank you again for your support.
