

EDUCATIONAL PHILOSOPHY

The Board of Education is dedicated to educating students to develop desired moral, ethical, and cultural values, to stimulate and expand a continual learning process and to cultivate an understanding and appreciation of the rights and responsibilities of American citizens, which will enable them to function effectively as independent individuals in a democratic society.

"It is the mission of the Chazy Central Rural School District in partnership with its students, their families and the entire community, to enable all students to maximize their potential to lead productive and fulfilling lives."

The educational program will provide each child with the fundamental academic skills and basic knowledge required for his/her maximum educational development, the opportunity for each child to develop his/her interests and abilities to the fullest extent according to his/her individual potential and special services to promote the physical, mental and emotional development of each child. It is the district's goal to foster in students good work habits, integrity, self-discipline, good sportsmanship, self-confidence and a sense of purpose. Extracurricular activities will be offered when possible to enhance the academic program.

The Board encourages parents and teachers to offer their expertise in helping to develop a school environment that is academically challenging, psychologically satisfying and socially fulfilling for students at all levels. The objectives of an educational program are best realized when mutual understanding, cooperation, and effective communications exist among the home, community and school.
