

STUDENT TRANSPORTATION IN PRIVATE VEHICLES

The Board of Education recognizes that, in special circumstances, district employees may need to use private vehicles for school purposes. In particular, the Building Principal or designee may authorize the transportation of students in private vehicles for the following reasons:

1. to transport a student or students to a hospital or other medical facility, in the event of a medical emergency; and/or
2. to transport a student or students to district-sponsored events when regular district transportation is unavailable.

Prior authorization may not be necessary in the event of an emergency. The district assumes no liability unless the employee has prior authorization for such transportation.

District administrators will exercise caution in authorizing transportation of students in private vehicles, since the district potentially assumes liability for any accident claim which exceeds the driver's automotive liability coverage. Any teacher or parent using a private vehicle to transport students on a regular basis during a school day (8:15 – 3:15), or a student transporting themselves on a regular basis during a school day (8:15 – 3:15) must provide evidence of liability insurance in an amount of \$100,000/per person, \$300,000/total per incident of bodily injury.
