- Nonvolatile insecticide baits in tamper resistant bait stations in areas inaccessible to children
- Silica gels and other nonvolatile ready- to-use pastes, foams, or gels in areas inaccessible to children

- The use of aerosol products with a directed spray in containers of 18 fluid ounces or less when used to protect individuals from imminent threat from stinging and biting insects including venomous spiders, bees, wasps, and hornets.

In addition, there will be no written notice of such application when a school remains unoccupied for a continuous 72 hours following an application.
